

Group No	10
	1
Student Name	Yilmaz Karakus
Assigned tasks	<p>Creating the backend - Express Server, API End Points, Database Scheme & Implementation, Password Hashing, Protection Against SQL Injection.</p> <p>Use Cases to implement: Mentee/Mentor Login Page, Technician Login Page.</p> <p>Prototype features: Keeping user logged in, app structure, implementing a landing page</p> <p>Acceptance Testing: Mentor Signup, Mentee Signup, Edit Profile</p>
Completed all assigned tasks?	Yes
If NOT ALL TASKS Completed tasks	
Completeness of final work (0-100%)	100%
Quality of Work	5 Very good
Timeliness of work	5 On time
Did the member actively contributed to the group in discussions (ideas/suggestions/ setting up tools/extra work)?	Yes

<p>If YES List Extra work</p>	<p>Had to take over and implement: Mentee page, Search for a mentor (matrix similarity based algorithm): Musa was only able to deliver Select Mentor Component at our teams set deadline. Mentor page: because Faiza's computer broke.</p> <p>Extra components include: Landing page, nav bar, Edit Profile Information, View Matched Users.</p> <p>Fixed the styling: Fixed the css of certain components to make them responsive - these include the mentee and mentor signup pages, select mentor component and technician page.</p> <p>Fixed bugs in the prototype: Fixed bug in technician page that caused a failure where the API call to insert the areas of expertise wasn't being called some times. Fixed a similar problem faced in mentor signup, where asynchronous functions were being called without waiting for the predecessor to finish.</p> <p>Making Presentation Slides Making final acceptance test report</p>
<p>Did the member attended meetings and communicated ideas and progress?</p>	<p>5 Always</p>
<p>Issues encountered (Member not contributing, causing problems and distrutions and etc..)</p>	<p>None</p>

Faiza Haque

Use Cases to implement: Mentor Page, View Matched Users Info
Making Presentation Slides

No

Making Presentation Slides - Yilmaz went on a call with Faiza to get her setup, but her Xampp didn't work and later due to a software update her laptop broke, as a result she helped with making presentation slides. (She filled out an EC)
